Hobbies & Interests?	I've always enjoyed sport and my main interest nowadays is cycling both in the UK and abroad. I enjoy traveling and have visited many countries both for leisure and cycling.
Links to the School or the area?	I was born and have lived in London all my life and although I have never worked in Hounslow I know the area well.
Why did you become a Governor?	After a few years of full-time retirement followed by six years of consultancy work I decided that I would like to contribute to the further development of a school and luckily for me MKS has given me that opportunity.
