Links to the School or the area?	I have lived and worked in neighbouring boroughs of West London for the past couple of years.
Why did you become a Governor?	<p>I've had experience in education governance and currently work in education policy.</p> <p>My younger brother is autistic and growing up I saw him attend both mainstream and special schools. Having seen the lifechanging support a special school can provide a family with, I want to use my experiences to offer something back to such a community as Marjory Kinnon School.</p>
