

MATHS WITH PARENTS NEWSLETTER

MARJORY KINNON SCHOOL
Issue 2 / 14th May 2021

Learning Maths has never been so much fun!
Shout out to our Marvellous Mathematicians
and their Superstar Parents!

Aaditya - LS3 Class

Family comment:

As usual, Aaditya enjoyed this game as its to do with additions.

Child comment:

I did the additions.
My dad was the winner, as he crossed the hundred first.

Abi - LS9 Class

Family comment:

Abi tried hard at this task using her hands to subtract.

Child comment:

I used my hands to work out the answers but found it easier writing it down on a piece of paper to work out.

Christian - Elephant Class

Family comment:

It was fun to measure things around the house. He found that the laptop was longer than a book.

Child comment:

I really enjoyed the game and measuring with cars!

Millie - Rhino Class

Family comment:

Millie couldn't remember what odd and even numbers were but once reminded she did very well. On the last section she managed to do the highest multiple of 5 and closest number to 50 with the last remaining numbers almost instantly and completely on her own.

Child comment:

I struggled to remember what odd and even numbers were but once I was reminded I did very well. I enjoyed this exercise once I got the hang of it.

Imogen - Zebra Class

Family comment:

Imogen did very well on this activity and we had fun doing maths together.

Child comment:

It was very fun.

Aurangzaib - Rhino Class

Family comment:

He enjoyed number bond race and his mental calculation is getting better.

Child comment:

I liked it, it was fun.

IF I HAVE BEEN ABLE TO
SEE FURTHER, IT WAS ONLY
BECAUSE I STOOD ON THE
SHOULDERS OF GIANTS.
